An electrifying future for the North West

Network Rail, the owner of Britain's railway track and infrastructure, is electrifying key rail routes across the North West to make train services faster, quieter and more reliable.

This major investment will improve rail travel between Liverpool and Manchester, Preston and Blackpool and will enable more trains with additional seats to run.

Electrifying the railway in the North West will enhance approximately 300km of some of Britain's busiest rail track; will support the North's long-term, low-carbon economic growth, and better connect people to jobs, services, friends, family, education and leisure.

So, why electrify?

Electric trains have 20% more seats than diesel trains. They are lighter and cause less damage to the track, resulting in a more reliable railway. Electric trains can get up to speed quicker and have superior braking systems, making journeys quicker, especially in urban areas where there are frequent station stops. Electric trains emit around 20-35% less carbon per passenger than diesel trains. There are zero emissions at the point of use, helping improve air quality pollution 'hot spots' such as city centres and main line stations. The trains are also quieter when waiting at stations.

When will it happen?

The line between Manchester and Newton-le-Willows is expected to be completed in December 2013. The lines between Newton-le-Willows and Liverpool Lime Street and between Huyton and Wigan are expected to be completed by December 2014, with the Preston to Blackpool section of line due for completion in December 2015.

Bank Holiday Rail Services

Remember, rail services may run to different timetables on Bank Holidays. It's a good idea to check your train times before setting off if you're travelling over the Easter period.

Changes in this issue: on Saturdays and Sundays from 18 February to 25 March 2012, trains between Liverpool Lime Street and Wigan North Western are replaced by buses. On Saturdays and Sundays from 31 March to 13 May 2012, trains between Huyton, St Helens Central and Wigan North Western are replaced by buses.

Customer Services

We would like to hear from you!

We at Merseytravel work with the train operators to deliver services that meet our customers' needs and expectations. The Northern Rail Passengers' Charter tells you, as a customer, the standard of service you are entitled to expect and the refund arrangements if the service does not meet these standards. The charter is available from all staffed City Line stations.

If you have any comments about your Merseyrail service, you should write to or phone the train operator who provides your service. Merseyrail City Line trains are operated by Northern.

Longer distance services shown in this timetable are operated by either Arriva Trains Wales, East Midlands Trains, First TransPennine Express, London Midland or Virgin Trains. The names and addresses of these train operators are shown below. They will do all they can to deal with comments and suggestions about their services.

The Operator Codes (for example **NT**) shown on the timetable pages, tell you which company operates your train.
